

## WHAT IS HODL HOTEL?

HODL is a social blockchain game that allows players to own hotel rooms, host and visit parties, and collect and display their NFTs. The game includes play to earn rewards mechanisms that pay you \$HODL coins to play. We call it "Party to Earn!" You can also earn rare NFTs through mini-games. HODL is no purchase necessary to play but the game can be enhanced by spending \$HODL coins. The game will be available to play on desktop only at [hodlhotel.net](http://hodlhotel.net), with a mobile version coming in the future.

## THE FIRST "PARTY 2 EARN" BLOCKCHAIN GAME!

In HODL, you get paid to party! All rewards are paid in our utility token, \$HODL. If you own a hotel room, you can host a party and earn for every guest that shows up. As a guest, special non-player characters like Santa Claus or Richie Rich can show up to your party and make it rain!

## POWERED BY THE \$HODL UTILITY TOKEN

\$HODL is available on the BSC network with an ETH bridge coming soon. P2E rewards are paid on the BSC side to limit gas fees. \$HODL tokens can be earned or purchased with BNB or ETH. Players can spend their \$HODL in-game or swap it back to BNB or ETH to realize their earnings. All NFT and hotel room sales are done in ETH with some of the proceeds being used to buyback \$HODL to stabilize the price.

## OWN METAVERSE LAND!

Players own real estate in HODL by purchasing hotel rooms. You can purchase a new hotel room on our website when a new in-game HODL Hotel location opens or you can try to get one on Open Sea! Once you own a hotel room, you can make it public and guests can start to attend your party! The larger your hotel room, the bigger the party you can throw and the more \$HODL you can earn!

## OPEN NFT PACKS AND KEEP AN EYE OUT FOR LEGENDARY 1/1 NFTS!

NFT packs can be purchased on [hodlhotel.net](http://hodlhotel.net). Packs will cost approximately \$20 in ETH. Each pack contains three NFTs with two commons and an uncommon / rare / super rare / or legendary NFT. Common NFTs have an unlimited supply, uncommon NFTs are numbered to 10k, rare NFTs are numbered to 1k, super rare NFTs to 100, and legendary NFTs are 1/1.

## WIN RARE NFTS IN MINI GAMES!

There are many free mini games in HODL to play with NFT prizes. Mini games are built into other NFTs like the arcade machine NFT or available in common areas like the bowling alley.

## YI LONG MA HODL BRAND AMBASSADOR

Yi Long Ma, the famous Elon Musk doppelgänger from China has joined the HODL team as an official brand ambassador. Yi Long Will be featured in HODL promotional content and be integrated into the game.
